

IEP and SCIENCE PROGRAMS

IEP Directors

(DWR, DFG, USBR,
USFWS, NMFS,
USEPA and others)

Interagency Ecological Program

Collect and analyze information about
estuary

Coordinate and integrate studies

Recommend measures to avoid and/or
offset adverse impacts of water project
operation

Monitoring required by SWP/CVP permits

Pelagic Organism Decline Studies

Lead Scientist

CALFED Science Program

Assist with performance measure and indicator
development

Communicate scientific understanding to the
CALFED community

Invest in priority scientific information needs

Support ongoing science by identifying and
providing technical expert advisors

DRERIP in partnership with ERP

Independent Science Board
